

What can I spend my consumables funding on?

You should know that...

- each item must be less than \$1500
- if your consumables budget is agency-managed, you can only buy consumables from a registered NDIS provider
- low cost assistive technology is also included in this budget. That means smaller items that help you in your daily life.
- you need to make sure the items you purchase are **reasonable and necessary**, and are needed because of your disability
- the items in this list are just an example - there are many more things you can purchase with your NDIS consumables funding!

Continence Aids

- pull ups and nappies
- catheters
- colostomy bags
- waterproof bedding
- wipes
- barrier cream

Hearing/Visual Aids

- handheld magnifier
- bed shaker alarm
- flashing doorbell
- talking clock
- visual smoke alarm
- walking stick

Physical Aids

- easy tipping kettle
- shower stool/chair
- grab rails
- modified cutlery
- non-slip mats
- portable ramps

Wound Care/Medical

- syringes
- feeding tubes and bags
- thickeners
- pressure sore care
- PPE (personal protective equipment)

Cognitive/Sensory Aids

- zip sheets
- sensory chewing aids
- noise cancelling headphones
- large print labels

Technology

- apps for making social stories
- text-to-voice software
- smart watch
- Google home
- reader pen

Not all of these ideas will be considered reasonable and necessary for you - what is appropriate will differ from person to person. You should always ensure that the product you wish to buy meets the NDIS criteria - you can read more about what that is on our website.
